Assignment No : 8

```
void setup()
{
// put your setup code here, to run once:
Serial.begin(9600);
Serial.println("Input the number");
}

void loop()
{
// put your main code here, to run repeatedly:
int input=Serial.parseInt();
int inputsquared=sq(input);
Serial.println(inputsquared);
delay(5000);
}
```
